

The **vision** of OASIS is an **ecosystem of 12 nanotechnology manufacturing pilot lines (PLs)**, operating under a common and demanding umbrella of Sustainable Production (OASIS framework).

The OASIS project aims at **fulfilling market potential of nano-enabled multifunctional lightweight composites**.

It aims at ensuring a competitive, quality, safe and environmental friendly production, of nano-enabled products in compliance with the applicable regulation.

The OASIS gathers manufacturing capacity of 12 pilot lines that will provide:

- ✓ Nanomaterials
- ✓ Nano-intermediate & Nano-enabled products
- ✓ Technical services:
 - *Modeling*
 - *Characterization*
 - *Toxicology*
 - *Life cycle assessment*
- ✓ Nontechnical services:
 - *Business innovation coaching*
 - *Business planning*
 - *Access to private capital*
